All of our courses have fully integrated exercises and workshops for students to immediately apply and reinforce their learning upon the introduction of every new concept. Bureau Veritas Training materials are professional, and our curriculum is progressive and always based on the most current standard revisions and informed by the latest industry changes

VIRTUE GLOBAL Training portfolio includes a wide range of standards-related courses in the areas of Quality, Environment, Health & Safety, Information Security, Human Resources Management, Food Safety, industry-specific standards, and more. Most courses are available for both public and in-company/on-site presentation. VIRTUE GLOBAL can conduct training at most requested locations. Inquiries and quotations for in-company/on-site events are returned the same day.

With a training course, you won't have to deal with the stress of everyday deadlines. You will have everything under control – from personal to professional life

A training program (or workshop) can assist you to become more proactive and less reactive. It will also help you get the maximum out of your daily routine.

We have a team of corporate trainers and consultants with rich experience in various sectors of business.

Audits

The Internal audit ensures the better management of an enterprise by improving its governance, risk management, and management controls. Internal auditing determines whether the business is on the right track and helps companies to accomplish their objectives by bringing a systematic and disciplined approach.

The Internal audit is a requirement demanded by the reference standards and helps the organization to evaluate the correct implementation and maintenance of the management system, identifying possible deviations and detecting opportunities for improvement.

Performing the internal audit with personnel external to the organization ensures the impartiality and objectivity of the auditors and will provide a more comprehensive and adjusted view of the status of implementation and compliance with the requirements of the standard.

Our experience takes the risk-based approach to evaluate your organizational risks. We help you bring value to your organization by providing services tailored to your needs.
